

I feel that it is unfair that public airwaves are going to be used in an election without any commercials to run a story on any candidate that is one sided. There this is a violation of public airwaves, they do not belong to the station owner manager etc. but to us the citizens of the united states who pay our taxes and make the sacrafices. I am a Kerry supporter but i would not support this action by any media group for either affiliation. PLease hear us we are trying to be heard.
